

# GYTPOL

## THINK LIKE A HACKER

A unique view of your security gaps.  
Pre-empt attacks with fast remediation.

### ■ ELIMINATE MISCONFIGURATIONS DUE TO HUMAN ERRORS & DEFAULT SETTINGS

Human Errors

Default Settings

Auto Remediation

Endpoint Protection Extension

Advanced Compliance Intelligence

Next-Gen Vulnerability Detection

### SMARTER, FASTER & RELIABLE ■

GYTPOL is the **next generation** security solution for organizations who demand the ultimate protection.

### DON'T ASSUME, KNOW FOR SURE

Trust no-one. Full & **continuous visibility** everywhere from your endpoints to your cloud of **misconfigurations** that disrupt and put your organization at risk.

### BEYOND DETECTION, REMEDIATION

Instant mitigation with **automatic remediation**. Simple, rapid, effective, all-in-one dashboard.

### THE GYTPOL BENEFITS ■

#### DETECT & ELIMINATE MISCONFIGURATIONS

Continuous monitoring with automatic remediation of all your assets.  
Prove your policies are applied across the network.  
Remote Workforce visibility and risk analysis.  
Lateral Movement detection.

#### NEXT GENERATION ACTIVE DIRECTORY ASSESSMENT

Continuous monitoring of both AD and AAD.  
Detection of real-time attacks.

#### ADVANCED COMPLIANCE

CIS, Microsoft Security Baseline, MITRE ATT&CK Framework.  
Achieve a higher level of compliance with GYTPOL intelligence coverage.
